

STAR THE CLONE WARS

Jedi training requires the deepest commitment and the utmost patience. Test your Force sensitivity and your visual acuity with these two images from the second season of *Star Wars: The Clone Wars*. They are almost identical in every way, except that Cad Bane and his cadre of merciless mercenaries have tinkered with one of the images, making five slight changes – and it's up to you to find them! Once you've mastered this test and uncovered all five differences, you may be ready to join the Jedi Order as a Padawan learner! May the Force be with you!

SOLUTION: (1) Clone trooper added to lower left corner. (2) Obi-Wan's lightsaber changed to red. (3) Background clone trooper on the far right side. (4) Clone trooper in lower right corner is missing. (5) AT-TE leg added behind
